

YOUR VOICE FORM

This form has been designed to gather an understanding of the overall experience of the entire cohort you are responsible for. However, if there are any isolated significant issues, this form can also be used to identify these and taken forward as feedback.

Additionally, this form is an opportunity for students to suggest any ideas for improvement in relation to any negative feedback they may have raised.

Finally, this form should also be used to highlight areas of good practice and please give examples of where this has taken place if possible.
